

Privacy Film Crystal Etch

Crystal Etch Privacy film is a sparkling vinyl film that simulates frosted crystal glass and creates a soft translucent appearance for application to glazing and is a popular choice in both commercial and residential buildings converting existing glass into privacy glass allowing 57% of the light through but not prying eyes, has virtually trouble free maintenance and can often be installed in less that a day, resist fingerprints and can be cleaned as you would any other window.

Crystal Etch film provides a medium level of opacity.

Crystal Etch film will allow the benefits of utilising your glazing without laying bare for all to see and the people and contents within.

Crystal Etch film allows natural light through so doesn't make the room feel dark and claustrophobic.

Crystal etch film has a 7 year Manufacturers warranty.

Performance Data	
Total Solar Energy	
Absorbed	63%
Transmitted	12%
Reflected	25%
Visible Light	
Transmitted	57%
Reflected	8%
Ultra-Violet Transmission	<2%
Shading Coefficient	0.8%
Total Solar Energy Rejected	30%
