

Privacy Film Matt Frost

Matt Frost Privacy film is another one of our best sellers and more opaque than opal frost providing a subtle sand-blasted look for application to glazing, converting existing plain glass into privacy glass allowing 69% of the light through but not prying eyes, has virtually trouble free maintenance and can often be installed in less that a day, resist fingerprints and can be cleaned as you would any other window.

Matt Frost privacy film provides a higher level of opacity than opal frost.

Matt Frost Privacy film enhances the benefits of both internal and external glazing without laying bare for all to see the people and contents within.

Matt Frost Privacy film allow natural light to come through it without making the room feel dark and claustrophobic.

Matt Frost Privacy film has a scratch proof coating and 7 year manufacturers warranty
