

## Privacy Film 70-micron – Silver Etch

Silver Etch Privacy film gives a beautiful silver frosted appearance to glass. It will also let a good percentage of visible light transmission allowing 56% of the light through but not prying eyes, has virtually trouble free maintenance and can often be installed in less that a day, resist fingerprints and can be cleaned as you would any other window.

Silver etch privacy film provides the higher level of opacity as matt or opal frost.

Silver etch Privacy film enhances the benefits of both internal and external glazing without laying bare for all to see the people and contents within.

Silver etch Privacy film allow natural light to come through so making a room feel darkand claustrophobic.

Silver etch Privacy film has a scratch proof coating and 7 year Manufacturers warranty
