

Super Shade 50

Offers attractive light neutral tint with noticeable heat reducing properties.

Super Shade 50 solar control film installed by Able Install offers medium heat and glare rejection.

Super Shade 50 film can also provide additional benefits such as uniform outside appearance and as with most window films installed by Able Install they can also stop up to 99% of harmful ultraviolet light (UV).

These films help to reduce cooling costs and therefore reduce energy costs by lightening the load on fans and air conditioning equipment. Government and business organisations can use Able Install solar control window

films as an integral part of seeking to comply with the Carbon Reduction Commitment scheme and help to reduce your Carbon footprint.

They also help to alleviate the discomfort caused by excessive heat and by glaring reflections off computer screens, assisting in compliance with the Workplace (Health, Safety and Welfare) Regulations.
